Summary

Aspiring **Software Developer Engineer** with knowledge of **Java**, **Python**, and **Data Analytics**. Skilled in **OOP**, **DSA**, and **automation tools**. Interested in building efficient and scalable software solutions.

Education

B.Tech in Computer Science — Meerut Institute of Engineering and Technology (MIET) 2022 – Present
Current CGPA: 7.5/10

Intermediate (78.6%) — Picket Inter College, UP Board 2022

High School (80%) — Shishu Shiksha Niketan Inter College, UP Board 2020

Projects

Credit Card Fraud Detection (Python, Streamlit) Ongoing

- Applied **machine learning algorithms** for fraud detection.
- Conducted **data exploration**, model training in Jupyter.
- Deployed as a **Streamlit web app** for real-time prediction.

Jarvis AI Assistant (Python, NLP, Automation) 2024

- Created a smart assistant using **Python**, **voice commands**, and simple **automation**.
- Added features like **sending emails**, **getting website info**, and using **APIs**.
- Enabled the assistant to answer questions using online search.

Weather Dashboard (HTML, CSS, JavaScript, OpenWeather API) 2023

- Built a responsive web app with **real-time weather data**.
- Optimized API calls using **async JavaScript**.
- Focused on **UI/UX design** and performance.

Technical Skills

Languages: Java, Python, C (Basic)

Web Dev: HTML, CSS, JavaScript, API Integration

Data & AI: Machine Learning, NLP, Data Wrangling, Data Cleaning, SpeechRecognition, A/B Testing, KPI Analysis, ETL

Databases: MySQL, InfluxDB

Analytics Tools: Power BI, Excel, Pandas, NumPy, Matplotlib, Seaborn

Tools/IDEs: Git, GitHub, VS Code, Jupyter, PyCharm, Canva
